A number of prominent visitors, including Rufus Hatch, have arrived at Winnipeg and gone West on a tour of inspection. They are delighted with the trip.

MONTREAL, Aug. 15.—From River Beaudette comes the news of a peculiar and fatal accident. A little boy was driving an imaginary horse in an empty hay cart, when he fell. His neck became fast in the reins and he was hanged by the neck, being quite dead when assistance reached the spot.

MONTREAL, Aug. 14. One of the most gigantic financial operations outside of railways that has occurred here for years, has just been consummated here. It is the sale and transfer of the controlling interest in the new Hudson cotton mills at Hochelaga, to the directors of the old mill, of which Mr. Victor Hudson was formerly president. The amount paid by cheque of Mr A. F. Gault, the president of the old company, for over sixteen hundred shares was $109,900, being at a premium of 10 per cent. on the original cost of the shares. There is nothing definite decided as to what class of goods the new mill, which is just ready for the machinery, will manufacture.

The Canada Pacific Railway Company has commenced the foundations of their railway depot on the old Quebec Gate barrack ground. The building is expected to be completed this fall.

Another startling revelation is about to burst upon the public here. It appears on good authority that the local Customs authorities are engaged in unravelling an additional vast system of defrauding the revenue that will entirely eclipse, when the truth comes out, all the gigantic manipulations in tea, flour, canvas, and white duck. It is urged that sufficient evidence has been obtained to show that a huge evasion of Customs duty has occurred since the present tariff was passed in an entirely different trade to any of those which the pro-collector, Mr. O'Hara, has so skilfully exposed. The amount of money out of which the exchequer has been chiselled by rings of importers is estimated to mount up to millions.

A special car left for the west this morning conveying Lieutenant-Governor and Mrs. Dewdney, Sir Alexander Galt, Assistant Commissioner Galt, and Master Alexander Galt and their attendant parties. His Honour the Lieutenant-Governor and Mrs. Dewdney will go as far as the new capital and then return to Qu'Appelle, from which place they will proceed to Battleford. Mrs. Dewdney will, it is said, baptize the new capital, which is to be called by its Indian name, and not Leopold as at first reported. Sir Alexander and Assistant Indian Commissioner Galt will proceed south, and as far as Forts Calgarry and McLeod, inspecting land and getting ideas generally as to the country previous to Sir Alexander's sailing for England. The latter will go by way of Fort Benton and the Union Pacific to New York, whence he will sail for Europe.

Construction on the Canadian Pacific north of Lake Superior begins this week from Prince Arthur's Landing to Nepigon.

MONTREAL, Aug. 19.—It is reported here to-night that a warrant of arrest for James S. Hunter, notary, has been applied for here at the instance of a lady belonging to Valleyfield, whom he is said to have defrauded out of $4,000.

HALIFAX, N.S., Aug. 18.—The little son of Charles Baggness, who was poisoned by eating cake given him by a stranger at the Rosebud Band of Hope picnic two weeks ago, died this morning. He was confined to bed for fifteen days, unable to eat anything the greater part of the time, and suffered frightful agony.

The Gammell will case now proceeding at Sydney C B., in which McLellan, Johnson, and Gordon are charged with forging the will, was continued yesterday. The evidence for the prosecution, which included the testimony of several experts in handwriting, was included. It is expected that the case will occupy the rest of the week.

Mr. Colin Chisholm, barrister, of Sydney, will oppose Hon. A. J. White, the new Attorney-General, in the conservative interest in the election in Cape Breton on the 29th inst.

The St. John *News* furnishes the following account of the tragic drowning accident at Fredericton on Saturday afternoon:—Between 4 and 5 o'clock in the afternoon, Miss Maggie Chestnut, daughter of Mr. H. Chestnut, hardware merchant, and Nellie Randolph, daughter of the Hon. A. F. Randolph, aged 12 and 11 years respectively, went in bathing at Berry Hill, four and a half miles above Fredericton, on the left bank of the river. While in bathing they were carefully watched by the wife of Mr. John Babbitt, jeweler, who sat in a scow close at hand. Suddenly the two girls, who had been wading in shallow water, plunged into a deep hole and disappeared from sight. Seeing the accident, and observing no one near who could render assistance, Mrs. Babbitt plunged into the water at the risk of her own life to rescue the drowning children. Fortunately Miss Randolph succeeded in obtaining a foot hold on a rock which bordered on the hole and clambered out in safety. Locked in each others arms Miss Chestnut and the heroic woman struggling sank. Miss Randolph, who by this time had gained the shore, on seeing the accident, ran up the bank to the road for assistance. A man named Dunphy arrived on the scene, but being unable to swim, could give no assistance. A number of of men soon reached the spot from Spring Hill, half a mile distant, with grappling gear to recover the bodies. In about an hour Mrs. Babbitt's body was brought to the surface directly at the spot where she disappeared. Efforts were made to resuscitate her, but the attempt was useless. Miss Chestnut's body was not found until 10 o'clock, when it was found floating by a raft of logs a few yards from the scene of disaster. The greatest sorrow and sympathy exists throughout the city on account of the dreadful affair. No inquest was deemed necessary. Sympathy was extended from all the city pulpits on Sunday, and the grief of the little ones in the Methodist Sabbath School of which Miss Chestnut was a member, was very affecting. Relatives of the deceased in Fredericton, St. John, and elsewhere are nearly wild with grief, and many touching exhibitions of sympathy have been shown toward the grief-stricken families.

(Per Steamer North Pacific.)

MONTREAL, Aug. 17.—Miss Sarah Lavers, a pretty and vivacious young lady, the daughter of Mr. William Lavers, of No. 70 Hypolite street, has with other relatives been living at St. Jerome for the summer. Miss Lavers and a gentleman named Scott were playing with a revolver, and in some manner the deadly weapon, which was loaded, exploded. With a scream Miss Lavers staggered and fell. All was excitement in an instant, and the pleasantry gave place to most heartrending anguish as relatives rushed to the scene and beheld the work of the revolver. A physician was sent for at once, but all his efforts to extract the bullet seemed in vain, and it was decided to send to town for a doctor. This morning Miss Lavers' sister came up town and communicated the terrible news to her father and brother. They started for St. Jerome by the next train, accompanied by Dr. Ross. This evening the lady appears to be in a dangerous condition. The wound is in the right side below the ribs.

MONTREAL, Aug. 18.—A six year-old lad named Beverly Garroit was drowned last evening at Beauharnois before his mother's eyes. She was powerless to save him.

Miss Lavers, accidentally shot by Young Scott at St. Jerome yesterday, is much better to-day, the bullet having been extracted during yesterday afternoon.

The friends of Mr. James Stewart Hunter, most of whom belong to St. Andrew's church, met last evening at the private residence of Mr. Joseph Hickson, general manager of the Grand Trunk Railway, and had a long talk over his embarrassed condition. There being no full statement of his complications ready to submit to the meeting, there was absolutely nothing done. It was finally arranged, however, that he should make out a statement of his difficulties and hand it to a friend of his who was present, when another meeting will be called. It is understood that a syndicate of Mr. Hunter's old friends will offer to become security for his deficiencies.

The *Mail* of the 18th ult. states that the vice regal party were to leave for this province on the 31st—(yesterday).

OTTAWA, Aug. 18—The apartments of the Speaker of the House of Commons has just been fitted up in a palatial style. The painting, papering and frescoing are very artistic, the result being that they are now the most handsomely decorated apartments in the city.

About half-past six o'clock this evening a portion of Parliament square was filled with a thick black smoke. As an alarm of fire happened to be sounding at the time it was thought that the Parliament buildings were on fire, and there was for a short time a good deal of excitement. It was, however, discovered that the smoke was caused by the soot in the large smoke turret leading from the boiler room having become ignited. The alarm that was sounding at the time was caused by a trifling fire in Lower Town.

The alterations that are being made in the Commons chamber will do away with the seats to the right and left of the speaker, which have been usually occupied by strangers who were by courtesy allowed to have seats on the floor of the House. It is understood that these seats will not be replaced by others in any other portion of the chamber, and that it has been decided that in future no stranger will be permitted to go upon the floor of the House. This privilege has several times been greatly abused by persons to whom it was extended.

A Mr. Rennie, of Montreal, has entered an action for libel, claiming $10,000, against Mr. Hunter, the defaulting notary, and his son, whose partner Mr. Rennie was. The plaintiff alleges that after the dissolution of the partnership in May last he went to England to secure the Canadian agency of an insurance company, but failed to obtain it owing to representations having been made by the defendants to the effect that he was not to be believed on his oath, that he was a fraudulent bankrupt, that he was under police surveillance, and that he had defrauded the defendants of considerable sums of money. Criminal proceedings in the same case will be instituted in a few days.

NEW ARRIVAL OF PIANOS. — Messrs. Bagnall & Co. have the most splendid display of Pianos and Organs ever exhibited in the city; some choice Violins, Guitars, brass and nickel-plated Cornets, and everything pertaining to the music trade. Pianos and Organs for hire. Tuning and repairing by J. Bagnall. Government street, Victoria. *

As a remedy for Sea Sickness, for any irritation of the stomach and bowels, for canker of the stomach and mouth, for piles and hemorrhage, and for all varieties of bowel complaints, Dr. Fowler's Wild Strawberry is nature's true specific. (17)

CANADA.

A New Pass Found.

ST. PAUL, Aug. 27.—Major Rogers, locating engineer of the Canadian Pacific, telegraphs President Hill, of the Manitoba line, that he has made a discovery which will save the Canadian Pacific Company millions of dollars in construction, besides materially shortening the line heretofore projected. He found not only a feasible but favorable pass for carrying the road through the Selkirk or Gold range in British Columbia about 100 miles north of the boundary line and directly east of Kamloops and 100 miles south of Yellowhead pass, where the Canadian government originally located the road on an air line from Kamloops to Thunder bay, and will give the Canadian Pacific the nearest of any continental roads to an air line by the showing on the maps. The difficulties that Rogers had to contend with have been equal if not greater than ever before encountered by a railway engineer. He had to trace and retrace lines, traverse uninhabited regions and explore dangerous cañons for two summers

MONTREAL, Aug. 30.—The railroad bridge at Strose, on the Canadian Pacific Railway, collapsed to-day while a freight train was passing over it, and several cars went through. No particulars have been received, the telegraph lines being broken.

Eastern States.

BOSTON, Aug. 30.—At the Foster wharf today twenty-five Italians and Russians proceeded to work on the steamer Otranto, to take the places of longshoremen, when suddenly a large number of strikers hustled the officers and pulled the scabs away. If other men are not obtained a gang will be made from the steamer's crew.

LELAND, Ills., Aug. 27.—This evening Mrs. J. M. Stratton, wife of a successful lawyer here, shot her husband and then herself, both dying immediately. No cause is assigned for the deed. They had been married but a short time and were supposed to be living happily. A short time before the shooting neighbors heard loud words between them.

TAYLORVILLE, Ills., Aug. 27.—Miss Emma Bond, victim of the recent outrage in the schoolhouse, by tramps, is failing rapidly, and no hope of her recovery is entertained.

CHICAGO, Aug. 29.—Edward N. Welsh, arrested three or four days ago in New York for robbing the Bank of Kewanee, Ill., passed through the city this evening, enroute for Kewanee, in charge of a detective, who arrested him. The detective agency which has charge of the case says he made a confession to the effect that Dr. J. S. Scott, of St. Louis, formerly a resident of Kewanee, planned the robbery, though he took no direct part in it; that Pratt, acting cashier, was a party to it, and instead of the large sum in gold notes missing being carried away in a valise with the other money, it was Pratt who carried it off previous to the day when Welsh and his companions locked Pratt and Mrs. Harris in the vault, and carried away the remainder, mostly in paper money. Welsh refused to give the name of the man who helped him in the job. Pratt has been arrested.

PHILADELPHIA, Aug. 29.—Wm. S. Lloyd & Co., bankers and brokers, have failed.

DR. CHAN TAN TONG from Canton,—Skillfully and confidentially treats diseases of men, women and children. Office Government street, near Johnson street.

Dr. Chan Tan Tong practiced medicine at San Francisco for ten years and has had great experience.

W. H. Crooker, Druggist, of Waterdown, under date of June 1st, writes that "Dr. Fowler's Extract of Wild Strawberry cannot be surpassed, when all other remedies fail then it comes to the rescue, and I find the sales large and increasing." Wild Strawberry positively cures all Bowel complaints. (18)

M. SHEEHAN, of Oscoda, Mich., writes: "I have used Dr. Thomas' Eclectric Oil on horses for different diseases and found it to be just as you recommended. It has done justice to me every time, and is the best oil for horses I ever used." 56

The Wild Strawberry plant possesses rare virtue as a cleansing, cooling, astringent, anteseptic, and healing medicine, and when combined with other valuable vegetable extracts, as in Dr. Fowler's Extract of Wild Strawberry, it is an unfailing remedy in all Bowel complaints. (14)

MANY Clergymen who were obliged to withdraw from the pulpit on account of "Clergyman's Sore Throat" have recovered by using Fellows' Compound Syrup of Hypophosphites and are preaching again. *

The firm of J. & S. McEachen, Douglas, writes us June 1st, saying "There is not another preparation we can recommend with so much confidence as Burdock Blood Bitters, as it invariably gives the best of satisfaction." Burdock Blood Bitters cures all diseases of Blood, Liver and Kidneys. (16)

Mr. R. W. Carmichael, Chemist and Druggist of Belleville, under date of May, 31st 1882, Writes as follows:—"Your Burdock Blood Bitters have a steady sale, are patronized by the best families here and surrounding country, and all attest to its virtues with unqualified satisfaction. (4)

AN infallible remedy for Fever and Ague is Ayer's Ague Cure. Wholly vegetable and containing no quinine, it is harmless and sure.

Biliousness.

A furred tongue, bad taste in the mouth, nausea vomiting, variable appetite, alternate diarrhœa and costiveness, faintness, weariness, yellow cast of eyes and countenance, indicates serious biliary trouble. Jaundice is a dangerous disease, it is an overflow of bad bile in the circulation, any of these symptoms should be remedied without delay, and Burdock Blood Bitters is the remedy upon which you may surely rely. (13)

Blank Book Manufactory and Book Bindery.

Paper ruled to any pattern. Tickets Receipts, etc., numbered and perforated. Charts and maps mounted. The best classes of modern machinery employed R. T. WILLIAMS, Government street, entrance through Messrs. Hibben & Co's store.

Davy & Clark, Druggists, Renfrew, writes us June 3rd. "We have sold Fowler's Extract of Wild Strawberry for a number of years, and find nothing equal to it, for the purpose for which it is designed." Dr. Fowler's Extract of Wild Strawberry cures all forms of Bowel complaints incident to Summer and Fall. (15)

THAT latest force or fluid, which permeates all matter, and which bears the conventional name of Electricity, is widely appreciated and recognized as a means of cure in various diseases. Its effects in the form of Dr. Thomas' Eclectric Oil are shown by the relief of pain, both Neuralgiac and Rheumatic, as well as the throat and lungs, and in various other healing ways. 55

FRIDAY MORNING, SEPT. 1st, 1882.

MR. HUMPHREYS FOR YALE.

Mr. Humphreys, the rejected by Victeria district, will stand for Yale. It will be almost unnecessary for us to caution the Yale people against this gentleman and his soft sawder. It is said that in conversation with some of the electors of the district he has stated he is opposed to the government, and that he has condemned Mr. ARMSTRONG's act of treachery in entering the cabinet after writing to Mr. Smithe to announce himself an Oppositionist and signing a round-robin that he had "NO CONFIDENCE" in the Beaven ministry. Mr. Humphreys may or may not be sincere in his present position. His pure soul may revolt at ARMSTRONGISM, and he may even be genuine in his expressions of hostility to the premier who ordered him out of his cabinet; but we incline to the belief that he is attempting to play the familiar household game of "fox and geese"—he to be the fox and the people of Yale the geese. In this attempt he will be disappointed. Yale will return one of her own citizens. She wants no played-out island politician or rejected candidate from another district to represent her at Victoria. The Opposition must see to it that there is no split in their ranks. They must unite on their best man—no matter from what part of the district he may hail—and carry him in. Poor Bennett's mantle would not sit well on Humphreys' shoulders. It could never be made to fit such a person. He cannot be trusted to represent Yale any more than he could be trusted to represent Victoria district, whose interests he neglected so shamefully that the people turned him out at the first opportunity. It is a fact notorious that although Mr. Humphreys sat four years in the Walkem ministry he did nothing for his district. Should Yale return him to the house he will sell her out as ARMSTRONG has just sold out New Westminster—for a seat in the cabinet; or, if he cannot get that, then for a sinecure in one of the departments.

COBWEBS.

Mr. Justice Gray swept away the cobwebs which the respondent in the Esquimalt election matter strove to weave about the case. All the objections were declared trifling and a mere waste of the time of judge and counsel. The commission was ordered to issue, and Mr. Bowron, the collector of votes for Cariboo, will be interrogated before Mr. Justice McCreight. After that has been done the case will come into court in a regular way, and the petition will be tried on its merits—an event which the government have thus far endeavored to avert.

DEPARTURE OF SUSPICIOUS CRAFT FROM HALIFAX.

A Secret Expedition Under General Butler's Auspices.

HALIFAX, N. S., Aug. 16.—The recent purchase here of a schooner named the Conquest, about twenty years old, by General Butler of Boston, has created much comment and many surmises are made relative to the object of the owner. The vessel sailed yesterday. The *Morning Chronicle* says: "As her clearance states, she is bound for Port Crockett, said to be in Madagascar, a long voyage for so small a vessel; and the secrecy with which the whole enterprise has been gotten up makes it seem not improbable that that port is not her destination. As far as we have been able to learn it appears that inquiries for a British bottom of suitable dimensions have been made for some time past by Capt. F. Tarr, of Gloucester, a gentleman well known for the prominent part he took in the late unhappy war of our Southern neighbors. Failing to find a suitable vessel flying the British flag in American waters Capt. Tarr dispatched an agent to Canada, where at last in Halifax the required article was found in the schooner Conquest, a gloomy, black, piratical looking craft, with extraordinary high bulwarks for a vessel of her size, well fitted to hide the small guns with which our observations lead us to believe she will be mounted. Capt. Tarr, who has been here for the past two weeks, has superintended the alterations that have been made in the vessel to suit her for the peculiar trip whatever it may prove to be. Large quantities of stores, sufficient for 30 or 40 men for nine months, were embarked on the Conquest. Notwithstanding that only two boys besides the captain and mate sailed in her from this port the departure of some twenty seafaring men to the eastward by a land conveyance within a few days leads to the impression that the Madagascar-bound vessel is not going to sea light handed. Added to what we have said, the fact that arms and ammunition arrived by the last Boston steamer consigned to the projectors of this enterprise, a not unnatural feeling is felt that that Capt. Tarr, either for himself, or more probably for General Butler, is engaged in an undertaking that will bear watching, and the outcome of which may be looked forward to with some interest.

Oregon.

ASTORIA, Aug. 29.—James Gardner and Frank Horn, employed in Stevens' Varieties, quarreled and made targets of each other at 3 o'clock this morning. Police officer Steabb, attempting their arrest, was shot by Horn through the right lung and is now in the hospital, with chances against his recovery. Horn was shot in the left side, a flesh wound only, and is now in gaol. Gardner was shot through the left hand and right arm, and is in the hospital. Steabb is a good officer and citizen, and if his wound proves mortal Horn's life is not worth insuring. Both he and Gardner belong to that disreputable class of which any community is well rid of.

Mexico.

MEXICO, Aug. 29.—This morning two legislatures organized at Zacatecas; one composed of the friends of the general and state governments, the other of the friends of General Garcia Cadena, who has presidential aspirations. Last evening a fight occurred between Cadena and friends and the state troops. After a sharp contest of twenty minutes, in which one rebel was killed and three state troops wounded, Garcia Cadena surrendered with his followers. Zacatecas is quiet and no further disturbance is anticipated.

THE ARIZONA MURDERERS.

Two of Them Hanged--Story of the Robbery and Killing of Dr. Vail and Andy Hall.

(Special to the S. F. Call.)

TUCSON, A. T., Aug. 24.—A *Star* special from Glove City, concerning the robbery and murder of Andy Hall and Dr. Vail, says: Last night at 7 o'clock the sheriff brought in from Pinal Ranch C. B. Hawley and L. V. Grimes. Cicero Grimes was under arrest here. All three made full confession. Hawley and L. V. Grimes confessed that they did all the work. Cicero Grimes was to share in the proceeds, and consented to help in the plan of robbery. He went to the summit of the mountain and met the express, and rode ahead of it some distance and gave the signs to Hawley and L. V. Grimes, who were concealed near the trail. When the express arrived there they commenced firing to scare off the messenger and mail rider. The mail rider, Porter, ran off to get a gun. Cicero Grimes had then got into town. The messenger, Hall, had no arms except a rifle without cartridges and a pistol with a belt of cartridges. The messenger hid himself, and young Grimes and Hawley broke open the box, getting $5000 in gold. They then started away with it. M. F. Vail, on his way to his mine, rode upon the scene of the robbery. Soon after, and while looking around the trail, the guard came back, and, not knowing Vail, shot at him. Vail, thinking he was attacked by one of the robbers, rode off, and overtook them. The robbers played friendly, and said they were going to town. Vail, being afraid, went with them about half a mile, when they shot him three times in the back. Vail died soon after. After this they were overtaken by the messenger, Hall. He pretended that he had been shot at by Indians, and wanted protection to get into town. He went with them some distance, carrying a pistol in his hand all the time. They got the messenger between them, and Hawley shot him in the back. Hall shot five times at them, and then they literally riddled him, shooting eight balls into him. They divided the money. Grimes took his and his brother's share, and then they separated. Through a chain of circumstantial evidence, Treasurer Lacy, Sheriff Lowther and others worked it up. Too great praise cannot be given to Lacy and Lowther, and also J. R. Gabriel, and their assistants. The mob was determined to hang all three. Cicero Grimes has a wife and large family here. While L. V. Grimes and Hawley were out with a party of citizens and officers hunting the treasure, Cicero Grimes made a statement to the crowd who were determined on his death. Fitch, a young lawyer, made a speech to the mob for Grimes for nearly two hours. He was followed by O. B. Kennedy, Rev. B. D. Colofee and others. The officers finally got Cicero Grimes away to a place of safety. The crowd then took Hawley and L. V. Grimes and hanged them. There was not much noise. Hawley died game. L. V. Grimes broke down at the last. The town is all quiet this morning. Cicero Grimes will be tried next term of court, and is sure of a long term at Yuma.

California.

SAN FRANCISCO, Aug. 28.—Miss Nettie Bennett, a young woman who wished to be "anywhere out of the world," leaped into the bay yesterday, and was not rescued until life was almost extinct. The attempt to drown herself was witnessed by a large crowd, and a scene of the most thrilling excitement followed. Miss Bennett is aged 22, of fine form and handsome face. She is very respectably connected in the city. General disgust with life, induced by a wayward, sinful career, prompted the suicidal act.

OAKLAND, Aug. 28.—S. E. Stevens, who practiced as an attorney in the justice courts of Colusa and Tehama counties, was killed by Ashford Christian at the residence of the latter, seven miles northeast of this place, yesterday. Stevens went to the house of Christian and claimed a commission on a sale. Christian denied the claim. In the dispute which followed Stevens drew a knife and threatened the life of Christian, who seized the knife, knocked Stevens down with his fist and kicked him to death. Christian, who is respectably connected, is now under arrest.

WHEATLAND, Aug. 29.—A camp meeting is now being held about a mile from town. Last evening a stranger asked the Rev. Mr. Stroball of San Francisco to pray for him, and then invited him to call on his brother and sister. On getting outside the camp the stranger presented a pistol and robbed the clergymen of his watch, chain and money.

The customs duties collected the past week were $139,500.46, making a total since January 1st of $5,738,925.10.

SAN FRANCISCO, Aug. 29.—Among the passengers who arrived yesterday on the steamship Coptic, from China, are A. J Glover and his brother, T. R. Glover, two Scotch merchants of Japan. They are on their way to Oregon, where they propose to purchase a large tract of land, upon which they will raise cattle and sheep. A. J. Glover will stay in this country, attending to the ranch, while his brother looks after their large interests in Japan. All the labor will be performed by Japanese, a large force having already been engaged to come out to this coast as soon as they are needed.

The Attempt to Assassinate an Archbishop.

A dispatch from Melbourne, Australia, *via* London, brings information of an attempt to assassinate James Alpin Goold, archbishop of the colony. The assassin was one Thomas O'Farrell, brother of the man O'Farrell who was executed in Sydney for attempting to assassinate the Duke of Edinburgh in 1868. Thomas O'Farrell is a lawyer of some note in Melbourne, and it is said had charge of much of the business of the Catholic church. In 1877 he came to San Francisco and continued to reside there, doing some journalistic work and employing himself in various ways until the early part of this year. While there he went under the name of Thomas Desmond to escape the odium of his brother's crime and its expiation. From there he went back to Melbourne, where, by his unreasonable literary assaults on those who had been his friends, a doubt as to his sanity was created. The archbishop, who had befriended him there, seemed to be a special object of his hostility and was denounced by him in public prints as a felon and a swindler, and his aggressiveness culminated in shooting the prelate. The nature of the wound is not stated, but whether it be mortal or not makes, it is said, no difference in the consequences of the attempt to himself, as an attempt to murder, even though the attempt may not succeed, is in that colony punishable with death.

Countess of Portsmouth's Plate.

There was recently offered for sale at Messrs. Christie, Manson & Woods, at the same time as the plate belonging to the late Lord Chief Baron, a quantity of silver plate of which the history is somewhat curious. The plate in question is described in the catalogue issued by the auctioneers as "formerly the property of Mary Ann, formerly Countess of Portsmouth," and, in fact, the bulk of it is impressed with the Portsmouth arms. This Countess of Portsmouth, whose maiden name was Miss Hanson, was one of the Court beauties in the reign of George IV, of whom it is said, she was an especial favorite, and on her marriage to the third Earl, His Royal Highness presented her ladyship with several dinner plates, bearing the royal arms, which are included in the sale. At the wedding, Mr. Alder of Horncliff, North Northumberland—the estate now belonging to H. E. H. Jerningham, M. P.—was groomsman, and Lord Byron gave the lady away, and presented her with certain of the articles comprised in the catalogue.

Five years after the marriage the Countess was divorced and subsequently became the wife of Mr. Alder, who, becoming embarrassed in his affairs, was obliged to make an assignment for the benefit of his creditors. The assignment embraced the plate referred to, but, according to the terms of the deed, it was not to be realized unless the remainder of the property assigned was insufficient to pay the creditors. The plate not being required for the purpose of the trust, the trustees under the assignment deposited it in a bank in Berwick, where it has been for the last fifty years; but recently proceedings were instituted on behalf of the only son of Mr. and Mrs. Alder, now a farmer in the State of Michigan, with the result that the plate was ordered to be given up by the bankers in whose custody it had remained so long.—*London Truth.*

VIRGINIA, Aug. 30.—John Ash fell down the Union-Mexican winze, this morning, 80 feet, and struck astraddle of the bucket, almost splitting him open. He died in an hour.

The singing of a burlesque hymn in a London theatre, intended to ridicule the Salvation Army, was furiously hissed by the audience.

DEATH.

In this city, on the 31st August, of cholera infantum, Samuel Nathaniel, infant son of Robert A. and Isabella Horsley, aged four months.

The funeral will take place from the residence of the parents, Johnson and Cook streets, at 2 p. m. SUNDAY.

What Some People Say.

That the thermometer stood at 91 degrees at Portland on Wednesday.

That a minister in a cabinet without a following is like a cat among rats without a tail.

That it is said the Marquis of Lorne, at a railway station in Canada, mentioned the fact that some of his ancestors put their feet under Arthur's round-table, whereupon a backwoodsman exclaimed, "Wa'al, if my ainsisters had been there, they'd 'a put their feet a-top of it, you bet."

That Mr. Consul Francis has reported to the state department that the wholesale importation of Chinese by the American contractors on the Canadian Pacific is bitterly denounced by the people of British Columbia.

That it is pretty well conceded in Portland that Mr. Van Damme shot Mrs. Van Damme last week, though he says not, and she strongly corroborates him. In any event he is held for the offence.

That the *Post-Intelligencer* says the P. C. S. Co. receive $14,400 per annum for the Alaska mail contract. Their original bid was $6,000 per annum.

That hay is $17 at Seattle.

That the ministry have lots of patience, but no resignation—half-developed Christians.

That fashions change. Call and see the new styles of STOVES received *ex* North Pacific by H. C. WILSON, Government street, next to J. Parter's.

That the *Standard* is now trying to prove it is not Blue over the defeat of Brown. Will it swear that it never claimed Mr. Brown as a government candidate?

That the government is evidently alarmed at the Esquimalt election matter. It at first refused to send a reporter to the court. Latterly it has had two on hand.

That the premier is heartily disheartened since he learned from Mr. Orr's disclaimer that the new provincial secretary has not a follower in the house. It is evident that Sweet William's days as a minister are numbered, even if he should be re-elected. In any case, his influence is gone forever.

That BORDE & MORLEY are the "boss" horseshoers. They have taken first premiums at all the agricultural shows, and are prepared to accept a challenge from "boys" or men for a comparison of work. The public are asked not to forget these facts.

That cholera infantum daily claims victims.

That yesterday was the warmest day for two years. Towards evening it cooled off.

ARMSTRONGISM

Before and After Entering the Cabinet.

BEFORE.

NEW WESTMINSTER, Aug. 11, 1882.

To Wm. Smithe, Esq., M. P. P.:

You are authorized by us to state to His Honor the Lieutenant-Governor that the present local government does not possess our confidence.

W. J. ARMSTRONG,
and others.

AFTER.

NEW WESTMINSTER,
18th Aug. 1882.

W. SMITHE, ESQ.,

DEAR SIR:—I have to request that you will take my name OF (*sic*) the paper signed by me when you were here a few days ago, which paper stated that I have no confidence in the government.

Yours, most respectfully
W. J. ARMSTRONG.

DISTRESSING EVENT.—Edward Stevens is telegraph operator and express agent at Olympia. Between 2 and 3 o'clock on the morning of the 30th ult. Mrs. Stevens heard some one working at the front door and awakened her husband, who at once jumped from his bed and seized his revolver. By this time the intruder had made his way through the front door and was in the hallway leading into the express office, where there was considerable money and other valuables. Mr. Stevens called out three times to the man, asking what was wanted, and receiving no reply fired a shot through his bedroom door. As he fired the intruder fell to the floor a dead man, pierced by a large revolver ball. Opening the door Mr. Stevens learned to his dismay that he had killed Andrew McClure, a logger, who has worked for Doc Simmons on Skookum Bay for several years, and who was known to be a harmless man. It seems he had been on one of his periodical sprees, and while under the influence of liquor placed himself in a position that no sane man would ever assume, and thereby lost his life. Stevens, since the occurrence, has become insane.

PERSONAL.—Capt. Tuttle, general U. S. mail agent of the North Pacific Coast; C. H. Prescott, Esq., manager of the O. R. & N. Co., and family, and Mr. Howard, of the Northern Pacific Railroad Company, were in town yesterday.

THE ROYAL VISIT.—A San Francisco dispatch says: The Marquis of Lorne and Princess Louise are expected to arrive in this city about the 15th of September, *en route* to British Columbia. As yet no definite arrangements have been made by the British residents of San Francisco or by our citizens to accord the royal guests a fitting reception, for the reason that nothing definite is known of their movements.

DEATH OF HON. JOHN TOD.

NEARLY A CENTENNARIAN.

The Last of a Former Generation of H. B. Co. Factors.

Yesterday afternoon one of the most remarkable of the hardy old pioneers of the great northwest expired in his 91st year. The Hon. John Tod was the eldest in a large Scotch family, the youngest member of which, namely, Mrs. Anderson, is now a resident of this city. He was born at Leckleven, Dumbartonshire, Scotland, in 1791 or '92, and was intended by his parents for a mercantile career. At the age of sixteen, possessing an indomitable, independent spirit, he resisted the command of his employer in the matter of delivering parcels, which, it seems was the duty of a junior clerk, and thus put an end to his prospects in a mercantile line. About this time, 1807 or 1808, Lord Selkirk was establishing his northwestern emigration scheme on the Red River of the north, and young Tod embarked for York Factory, Hudson Bay, in company with a number of other daring spirits, many of whom occupied positions of trust in after years in the extensive possessions of the H. B. Co. The deceased now worked his way up from a clerk to a trader, and from a chief trader to a factor and then to a chief factor in this service. Before the century was twenty years of age he had traversed the vast territory from Hudson Bay to the Colbm bia River. He remembered every incident of the trouble between the Northwest Fur Company and the H. B. Co., which culminated in open hostilities upon the ground on which the city of Winnipeg is now built, just outside of old Fort Garry. He found his way to Montreal by the great lakes about the time of the war of 1812. There was scarcely a fort in those early days that he did not know and several were afterwards established by him. For nine years subsequently, out in the Peace river country, he never saw the face of a white person or heard the sound of his mother tongue. Always a great reader when he could command books of any sort, he had a few works with him during this long exile and in order that he might not forget the English language altogether he accustomed himself to reading aloud and frequently recalling to mind and rehearsing what he had been reading about. With a strong and retentive memory such exercises tended to store his mind with information which was always at his command in after years. More than 40 years ago he was selected to take charge of old Fort Kamloops after the death of a Chief Factor named Black who was shot by an Indian in the hall of the fort. At this time Old Nicola, from whom Nicola river and valley were named, and his large tribe were much disaffected and the position of the deceased gentleman was one of extreme peril. He was a man who never knew what fear was. On one occasion Nicola and a large band of Indians managed to get into the fort enclosure for the purpose of killing the master and plundering the premises. Mr. Tod being almost alone and unaided ordered several kegs of powder to be brought to him and knocking out the head of one he coolly lighted a match and threatened to blow up the Fort, himself and all the Indians by whom he was surrounded unless they at once left the place and neighborhood. It is needless to say that he was soon master of the situation and from that time all insubordination among the Indians was at an end. On another occasion, while east of the Rockies, the small-pox broke out among the natives, and they imagined that Mr. Tod, the only white man amongst them, spread the fell disease intentionally. A large deputation waited on him to talk this matter over and during the conference he was openly accused of wanting to kill all the Indians. This idea was of course strenuously combatted and the natives were told that if they were all killed off he could get no more furs and would himself have to close the trading post and leave. "If," said Mr. Tod, "I wanted to kill you all I have only to take the cork out of this bottle," pulling it out of his pocket as he spoke, "and every Indian in the room would be a dead man." This remarkable instance of tact and presence of mind settled that difficulty, and his influence from that time was supreme. It should have been stated in the beginning of this short notice of a very remarkable man that he was first at Astoria in 1814, having crossed the mountains and reached the Columbia river from the east, very shortly after the late John Jacob Astor founded that trading post, afterwards immortalized by Washington Irving. He was a cotemporary of the celebrated Dr. McLaughlan and was early connected with Fort Vancouver. He retired from the service of the H. B. Co. after leaving Kamloops, about 1847 or '48, and settled at his late residence on Cadboro Bay. In 1856 he was appointed a member of the first executive council on Vancouver Island by the late Sir James Douglas, and held that position for several years. He leaves a large family of four sons and several daughters, and he is understood to have been somewhat wealthy. Besides considerable landed property around Cadboro Bay, and valuable city lots and improvements, he purchased, many years ago, a number of Bank of Montreal shares that have since become very valuable. The deceased for many years of his life kept an accurate journal. Some of those records he left east of the mountains, and before leaving Kamloops a large heap of them were consigned to the flames, as he then considered they were not worth the trouble of packing to this city, which was then Fort Victoria. Had these manuscripts been preserved a most interesting volume of exciting reminiscences of a long and eventful life could have been compiled and given to the public.

Marine.

Barque City of Halifax arrived in Royal Roads yesterday from Shanghai, for Moodyville.

Barque Joan Ludwig, Capt. Lentz, 35 days from Acapulco, arrived yesterday morning for Hastings Mill to load lumber for South America.

SINKING.—It was reported late last night that Capt. Lambie, of the barque Albany, was sinking rapidly, and that his death was only the question of a very short time.

THE VICE REGAL VISIT.—Col. Tourtelotte, a member of Gen. Sherman's staff, has been deputed by the American government to attend the Governor-General and Princess Louise across the continent to San Francisco. It is expected that they will be in Chicago on the 6th. Probably a special train has been engaged for the trip. Mr. Joe Heywood received this information in a private letter.

Hattie Moore's Comic Opera.

It is with a certain amount of pride and pleasure that we announce to-day the fact that the last performances in the old theatre are in every way worthy of its histrionic record. The company of lyric artists now playing a brief season here is probably the best and most complete organization of its kind ever seen in Victoria. To say that the music-loving citizens of Victoria were very agreeably disappointed last evening would be giving but faint praise, and according to a very meritorious company only simple justice. We were prepared from the reputation of Miss Moore and Harry Gates to see and hear excellent individual attempts; but the company as a whole is the best ever seen in Victoria, and the *tout ensemble* nearer perfection than we could have expected. To-night we are to have "Olivette," a charming opera by the author of "Mascotte," but entirely different throughout. The following is the argument of

"OLIVETTE."

In the first act the people of the village of Perpignan are excited over the approaching marriage of the seneschal's only daughter, Olivette, with an old sea captain, De Merimac. The young lady has just arrived from a convent, where she had fallen in love with a young officer, Valentine, nephew of De Merimac. The young Countess of Rousillon has, however, fallen in love herself with the young soldier, and comes to Perpignan to see him. In the house of the seneschal the countess has her solitude invaded by Valentine, who believes he is climbing the balcony of Olivette. Meanwhile the uncle, whose suit does not prosper with Olivette, writes the countess a letter demanding the young lady's hand. Valentine contrives to pass himself off for the real De Merimac, and accordingly marries Olivette at the request of the countess.

The second act opens with a ball given by the Countess in honor of the wedding, and Valentine finds that he has to personate not only his uncle, but himself, by constant change of dress. The real De Merimac returns and is greeted by everybody as the happy bridegroom. Finally his perplexity is resolved by the appearance of Valentine as the old man, and the result of the explanation is that De Merimac resolves to take the bride that Valentine has married in his name. A conspiracy is formed and Olivette gets rid for the moment of her elderly bridegroom. The love of the Countess for Valentine upsets the calculations of Olivette, for the sovereign lady of Rousillon announces her intention of marrying the loyal soldier who had quelled the conspiracy. As a last resource, Valentine, at the instigation of Olivotte, joins the plot, and the Countess is ordered to be sent out of the kingdom.

The third and last act describes the partial success of the plot and the imprisonment of the Countess on the Cormorant, the ship commanded by DeMerimac. Olivette and her husband, disguised as sailors, seek a vessel to take them away. Valentine is detected and seized. Olivette manages to set the Countess free and assume her dress, her own place being taken by her maid, Velcutine, whom the near-sighted Duke courts. De Merimac returns, and is horrified to hear the Duke tell Valentine of his courtship of Olivette. Both uncle and nephew disown the bride until the return of the Countess and the unveiling of Olivette. Valentine at last is united to Olivette, the Countess accepts the Duc des Ifs, and De Merimac is advised to follow the example of the Doge of Venice and "marry the sea."

CUSTOMS COLLECTIONS.

An Immense Revenue for August.

The customs duties collected at this port for the month of August exceed those of the corresponding month of 1881 by nearly $50,000, and is about $20,000 in excess of any previous month since or before confederation. These figures prove that the commerce of the port and the demands of the country are steadily increasing, notwithstanding the very large impetus that has been given to manufactures since the adoption of the national policy:

Duties	$88,307.91
Miscellaneous	770.27
Total	$89,078.18
Collections	$40,650.61
Increase	$48,427,57

CAUTION.

We beg to call the attention of the trade and the public to the well known quality and elegance of finish of our Gold Cases, guaranteed by us to be of eighteen karat Gold, U. S. Mint assay or of fourteen karat Gold, as may be stamped, and also to our mode of selling the same, charging only for the ACTUAL WEIGHT of the gold used, and not for the base metal comprised in springs, key pipes, filling of crown, etc. To illustrate which a tag accompanies each one of our Gold Cases, which plainly indicates not only the gross weight of the case, but also the NET weight of the gold.

In explanation of the above we desire to say that the old plan of charging for the gross weight of the case, as if it were all gold, worked well enough as long as the manufacturers were content with the amount of brass and steel actually required in its construction; but when the business was degraded into a contest as to who should get the most base metal into the least quantity of gold and call it a GOLD case, then the time came when, in the interest of dealers in American Watches, it became necessary to adopt a plan of selling, showing the buyer exactly how much GOLD each case contained.

To avoid imposition, purchasers of Waltham Watches will observe that every genuine watch, whether gold or silver, bears our trade mark on both case and movement. Gold cases are stamped "A. W. Co.," and guarantee certificates accompany them. Silver cases are stamped "A. M. Watch Co., Waltham, Mass., sterling silver," and are accompanied by guarantee certificates, signed R. E. Robbins, treasurer. The name "Waltham" is plainly engraved upon all movements, irrespective of either distinguishing marks. This caution is rendered necessary by reason of the fact that our cases are frequently separated from our movements, and put upon worthless movements of other makers and vice versa, thus affecting injuriously the performance of the watches, and vitiating our guarantee, which is intended to cover only our complete watches wholly made by us. It is necessary also, because it is so notorious as to be a public scandal that there is great fraud in the metal quality of both gold and silver cases as now generally sold. We have demonstrated by frequent assays that many gold and silver cases offered in the market are debased from 10 to 20 per cent. from the quality they assume to be. This is a fraud upon the purchaser, and accounts for the low price at which such cased watches have been sold.—AMERICAN WATCH COMPANY, Waltham, Mass. dw

THE BRITISH SUCCESS IN EGYPT.

Driving the Egyptians Before Them.

GRAPHIC DESCRIPTION OF THE FIGHTING.

THE STRIKE OF THE IRISH CONSTABULARY.

Some Fighting Between the Greeks and the Turks.

ISMALIA, Aug. 27.—At the outset of the fight we were under very heavy fire, especially from the Egyptian left, where ten guns rained shells incessantly. The 84th moved in that direction in skirmishing order, and as the men were scattered the losses were slight. Finding they were doing little harm, the enemy directed their attention upon General Wolseley and staff. The enemy fired freely upon the household cavalry, and all the hopes entertained of the bravery and usefulness of the latter were fully realized. Two Gatling guns served by marines were unable to go into action on account of the severity of the enemy's artillery fire. The fighting began at 6 a. m. and did not end till evening. There was not water enough for the horses, which were greatly fatigued. Our cavalry charged on the enemy early in the morning over heavy ground, forcing them to retire, leaving ten prisoners in our hands.

Towards midday the enemy got our range more completely and landed shells right in our midst. By noon the heat was so intense many of our men were attacked with dysentery and sunstroke.

In to-day's fight the dragoons charged the enemy, cutting down many and taking some prisoners. Major Belby was shot through the chest, but rode a considerable distance afterwards.

Our headquarters are likely to remain at Aburish for the present, to enable the stores to come up. Prisoners say many dead and wounded were taken away by the train which our cavalry nearly captured.

ALEXANDRIA, Aug. 27.—About 3 o'clock this afternoon two heavy guns, recently placed beyond the waterworks hill, commenced firing on the enemy on the left bank of the Mahmoudieh canal. About twenty rounds were fired, and several shells exploded in the midst of the enemy's entrenchments, causing considerable damage. The enemy replied feebly, and about 5 o'clock a conflagration appeared in the rear of the enemy's camp, about ten miles beyond Ramleh.

The British man-of-war Minotaur began shelling the enemy's outposts in the direction of Aboukir this afternoon. The shells appeared to burst in the midst of the enemy's position. The Minotaur continued to fire with increased rapidity until sunset. The enemy's reply was weak, and altogether there was very little activity in the rebel camp.

The impression gains ground that the bulk of Arabi Pasha's troops have been withdrawn from Kafr el Dwar.

Abdel Rassek and four other staff officers have escaped from Arabi Pasha. They were received by the khedive. It appears they had been for some time in communication with the khedive through members of General Stone's family. They were entrusted by Arabi Pasha with defence of Tel el Kebir, but abstained from making earth works. They escaped and went to M. De Lesseps and asked his assistance to get away, but De Lessops tried to dissuade them, accusing them of want of patriotism. They finally sought Rear Admiral Hoskins, who forwarded them to Alexandria.

An engine and nine trucks arrived today from Suez. The line is in fair working order. The rebel position at Tel el Kebir is very strong, their entrenchments running right across and on both sides of the railway, and their position flanked on each side by water. Our losses Friday were about fifty killed and wounded, of which the cavalry lost 20 or 30 from the heavy shell fire and from charging a square of infantry. Our total forces in Ismalia district under Gen. Wolseley are about 11,000 men, 2,500 horses and 27 guns.

ISMALIA, Aug. 28.—Troops are continually advancing and it will not be long before Tel el Kebir is attacked. Between Ramleh and Mayum the ground is good for marching, but the canal is full of dead horses and dead bodies of Arabs. Some of the latter were thrown there by their comrades, while others were corpses of men shot while attempting to escape. Judging by the quantity of clothing, etc, found in the abandoned camp the rebels must be in great force. But most appear to have been merely peasantry armed with muzzle-loading muskets. Almost all prisoners are peasants and all dead are also peasants. Doctors have prohibited the use of water in Lake Maxium for drinking. An artillery general has been captured who speaks English fluently. He furnished valuable information. We now have two infantry regiments with cavalry and artillery at Kassassin.

ISMALIA, Aug. 27.—Only six dead bodies of Arabs were found on the field of battle, but inside of Ramses were found several small pyramids of stones freshly put up, beneath which dead natives were probably buried. Though the engagement was not serious as far as hard fighting was concerned, the soldiers acted splendidly. The difficulties of the ground were fearful, while the heat of the sun defies exaggeration. Gen. Wolseley's object has been achieved, and we gained much more fresh water, for the canal had been carefully dammed at Ramses. Native cavalry have arrived and gone to the front.

ALEXANDRIA, Aug. 27.—We have captured a spy and handed him over to the native authorities who tortured him with thumb screws and ordered him to be shot. He said Arabi Pasha has only a strong regiment of artillery, 2000 cavalry, and a few infantry in front of us. Signaling has been proceeding during the past few nights with Arabi Pasha, but we have been unable to discover who is sending the signals.

ISMALIA, Aug. 27.—When the mounted infantry of the household troops charged into Matsameh, Sir Havelock Allen showing the way, the enemy dashed into the lake and swam for safety. They were plied with rifle bullets as they dived and floundered.

ALEXANDRIA, Aug. 27.—News of the success of British troops Thursday is placarded in town and caused excitement and rejoicing.

The men belonging to the Austrian frigate Nautilus captured saw Arabi Pasha at Kafr el Dwar. The prisoners were only released after giving their word of honor not to disclose anything they saw.

ALEXANARIA, Aug. 27.—The British 40-pounders at Ramleh commonaded the enemy's lines to-day. The native who murdered the Manchester merchants Richardson and Dobson and three other persons on June 11th has been identified and arrested.

PORT SAID, Aug. 27.—The steamer Calypso arrived on Saturday with 150 Turkish troops and was moored inside the inner harbor, when the Monarch at once sent two armed boats with gatling guns to learn their errand. The Turks stated they were the annual relief for the Turkish garrison at some fort in the Red Sea. During the night armed boats from the British fleet cruised around with orders to prevent the Turks from landing. The Calypso entered the canal Sunday morning, a steam pinnace from the Hecla accompanying her with orders to prevent disembarkation of troops.

CONSTANTINOPLE, Aug. 27.—Said Pasha went to Therapea Sunday evening and informed Lord Dufferin that the Turkish council of ministers had resolved to publish the proclamation against Arabi Pasha and accept a military convention with England, conformably to Lord Dufferin's proposals.

CONSTANTINOPLE, Aug. 27.—Mukhtar and Servia Pashas are preparing to proceed to Alexandria at once. During the last three days fifty persons were arrested while engaged in enlisting men on behalf of the khedive.

Report continues to attribute to Nelidoff, the Russian ambassador, an anti-English policy. It is stated that he has repeatedly urged his colleagues that England must submit to the conference the results of the Egyptian campaign and justify her accession to the protocol, proclaiming individual disinterestedness to all the powers. The British embassy has lately received advices from Erzeroum that Russian authorities are making large purchases of wheat to be stored at Kars.

CONSTANTINOPLE, Aug. 28.—Austria supports Nelidoff, the Russian ambassador, in his efforts to have the military convention, when signed, officially communicated to the conference, and to obtain from Great Britain a declaration that she would seek no exclusive advantage in Egypt and will submit the final solution of the question to the decision of Europe.

ALEXANDRIA, Aug. 28.—The man-of-war Minotaur has successfully shelled the enemy out of Madana, on the line between Ramleh and Aboukir.

LONDON, Aug. 29.—A dispatch from Ismalia states that firing began on Monday between the advanced posts of the enemy and the British.

Other advices received in London confirm the report of the battle and the repulse of the enemy at Kassassin. The fighting took place by moonlight. The British loss was from 120 to 150 men.

The physicians of the Archbishop of Canterbury announce a mitigation of the worst symptoms of his illness.

ST. PETERSBURG, Aug. 29.—The Siberian plague is appearing to an alarming extont in the most widely separated quarters of European Russia. One death from the disease has occurred at Odessa.

CONSTANTINOPLE, Aug. 29.—A German officer in the Turkish army was present at a meeting of the council, when the signature of the military convention was finally discussed, and advised acceptance of the English proposals.

PORT SAID, Aug. 29.—Last evening the Arabs attacked the British position at Kassassin, and were repulsed with heavy loss. The British lost 120 men. Eleven of the enemy's guns were captured.

LONDON, Aug. 29.—In the match between the Australian cricket team and an eleven of all England, the latter were defeated by 185 to 178.

CONSTANTINOPLE, Aug. 29.—Lord Dufferin has not heard from Earl Granville, to whom he submitted the porte's acceptance of the military convention. It is considered doubtful whether Earl Granville will agree to the acceptance by the porte, as the latter has been notified several times that it might be too late.

LONDON, Aug. 29.—The Turkish account of the fighting on the frontier between Turks and Greeks is as follows: Some Greeks attempted to take forcible possession of the disputed territory of Karalik Dervena, on the Thessalian frontier, but they were repulsed with heavy loss by the Turks under Boghed Pasha. Eight men were killed on the Turkish side.

General Wolseley telegraphs from Kassassni lock: Gen. Graham, commanding this post, was attacked yesterday evening by about twelve guns and eight battalions. Our men behaved extremely well, and inflicted severe loss upon the enemy. At first Gen. Graham had but five guns, two and a half battalions of infantry and a small detachment of cavalry and mounted infantry. Being reinforced by another battallion, he attacked the enemy in front, while the first cavalry brigade charged them in the flank, sabreing a considerable number. Arabi Pasha was on the field during the action. Our killed are one surgeon, Major Shaw, six marines and one infantryman; wounded, five officers and six men.

ALEXANDRIA, Aug. 29.—Slight skirmishing has taken place to-day at Ramleh.

LONDON, Aug. 29.—A petition signed by upwards of 100 members of the Irish constabulary has been forwarded to Earl Spencer asking that the dismissed men be reinstated. It is said that in the event of his failure to comply with the request a general and serious strike will occur.

The dismissed constables at Limerick, on hearing of the petition, declared they would not re-enter the force under any conditions.

ATHENS, Aug. 29.—Yesterday morning Turkish troops attacked the Greeks along the frontier from Seerbas to Damani. Fighting was continued to-day. The Greeks lost four killed and ten wounded. The government has dispatched 10,000 infantry, artillery and gendarmes to the frontier.

CONSTANTINOPLE, Aug. 29.—M. Concourcetis, Greek ambassador, represented to Said Pasha that the collision was provoked by a violation of Greek territory by the Turks. Said Pasha replied that last month a detachment of Greeks crossed the frontier and cut a telegraphic communication between a Turkish military post and a village. The Turks, requiring supplies, were obliged to pass through a part of the Greek territory. They were opposed and fired upon by the Greeks. The Turks retaliated and drove back the Greeks.

The porte telegraphed to its minister at Athens instructing him to make representations to the Greek government, insisting upon the cessation of hostilities.

The porte now insists that the Turkish troops shall be allowed to land at Alexandria, which shall be made to serve as a common base for British and Turkish operations.

LONDON, Aug. 29.—A dispatch from Alexandria says Soulba Pasha was poisoned to-day.

The *Times* says: We shall soon hear that Major-General Sir Edward Hamley has been ordered to move from Alexandria, and that he is to be replaced by General Harmony, lately assistant adjutant-general in Ireland.

The *Times* says of the invitation to the British Association to meet in Canada that it can be in no sense the same thing as a meeting on English ground; but that the invitation should be regarded as a welcome sign of the Canadian policy to the mother country.

ISMALIA, Aug. 30.—The British did not anticipate the recent attack. Results show, however, that we are ready for anything. It is reported that the enemy fled to Tel-El Kabir. Our position remains about the same but the cavalry advanced a few miles on the extreme right.

CONSTANTINOPLE, Aug. 30.—M. Pondouries, the Greek Minister, had another conference with Said Pasha, the Turkish Minister of Foreign Affairs. It is understood an order will be sent to the Porte by Greece, ordering a cessation of hostilities.

A detachment of Turkish troops left Salonica for the Greek frontier to restore order.

ISMALIA, Aug. 30.—The British have now nearly established a line of communication with the telegraph to El-Kafer. The railway along the route is nearly completed, and several trains have already been sent forward.

Gen. Wolseley is moving his entire army to the front.

PARIS, Aug. 30.—Engineer Melville of the Jeannette survivors will start for Liverpool today on his way home. Lieut. Berry who commanded the Rogers will remain a few days longer.

VIENNA, Aug. 30.—A hail storm occured near Pesth on Monday, destroying vineyards and many fields, and partly demolishing fifty houses. Many workmen were killed.

General Harold, with a brigade of Highlanders from Ramleh is now embarking.

The Greek ironclad left for Volumas in consequence of the collision between the Turks and Greeks.

There is much uneasiness owing to the existence of cholera on board vessels now on their way from Cairo to Alexandria.

ALEXANDRIA, Aug. 30.—Gen. Harold and the brigade of Highlanders under General Allison, have embarked on four transport boats. The British authorities state their destination is Ismalia.

BERLIN, Aug. 30.—The guard at the military range near here fired eight shots into a group of workmen, killing one. The Emperor has given orders for the affair to be specially investigated.

LONDON, Aug. 29.—General Wolseley telegraphed from Kassassin Lock: Major-General Graham, commanding this post, was attacked yesterday by about twelve guns and eight battalions. Our men behaved extremely well, and inflicted severe loss upon the enemy. At first General Graham had but five guns and two and a half battalions and a small detachment of cavalry and mounted infantry. Being reinforced by another battallion he attacked the enemy in front, whilst Russel charged them in the flank, sabering a considerable number. The cavalry were well handled by Major-General Drury Lawe and General Graham. Their disposition was all it should have been. His operations were carried out with the coolness for which he has always been well known. Arabi was on the field during the action. Our cavalry charged by moonlight, but were unable to secure the rebel guns, which the enemy withdrew during the night. They left, however, all their ammunition. Our killed are Surgeon-Major Shaws, six marines, and one infantry lieutenant. Wounded—one major, two captains, two lieutenants and fifty-six men.

DUBLIN, Aug. 28.—The discontent of the contstabulary has extended to the metropolitan police, and four hundred of the latter have made complaint that they are not compensated for extra work. While the meeting was proceeding the Chief Commissioner appeared and ordered the chairman to quit the chair. The chairman refused and the Commissioner threatened to make an example of him. The meeting then dispersed, and shortly after, at a subsequent meeting, they pledged themselves to compensate the chairman for any loss he might sustain. The Inspector-General of the Royal Irish Constabulary held a parade Sunday of the entire Limerick forces. He said the transfers to the North of Ireland of six sub-constables, which had occasioned excitement in the ranks, was not meant as a punishment. He pointed out that insubordination could not be tolerated. The six men referred to had till Monday morning, he said, to decide whether to go north or resign.

DUBLIN, Aug. 28.—The people of Limerick have practically become their own policemen, a great majority of the constabulary having refused to do further duty. The men ascribe the blame for the whole trouble to Clifford Lloyd. Cork telegrams, asking what day would be fixed for the resignation of the constabulary in a body, are passing between different stations in different parts of the country. Large numbers have made inquiries at various emigration offices to day, and the opinion is prevalent that one hundred men, of ten years service and under, will shortly resign.

LONDON, Aug. 30.—General Wolseley telegraphs from cavalry headquarters at Mamsch Camp, on Tuesday, that only the Household Cavalry and Seventh Dragoon Guards were seriously engaged in the fight at Kassassin Lock. The former had three troopers killed and eight wounded. Major Townsend received a saber cut. The Guards had two troopers wounded.

PARIS, Aug. 30.—At a meeting at the Grand Hotel a scheme proposed by *Gaulois* for a banquet to De Lesseps was discussed. About forty members of the press were present. Arrangements for the banquet were placed in the hands of a committee with instructions that it must be non-political, and attended only by Frenchmen.

ALEXANDRIA, Aug. 30.—The Highland brigade starts to-morrow.

General Sir Evelyn Wood has assumed the chief command of the troops in Alexandria and vicinity.

A Greek merchant who left Cairo on the 25th reports that Arabi Pasha, Ali Tehmy and a number of troops from Kafr el Dwar were at Kafr el Kebir when he passed there.

LONDON, Aug. 30.—Important ordnance was received at Woolwich today, to be forwarded at once to Egypt, with a formidable light siege train. It weighs, with equipments, 2000 tons and requires 1160 officers and men. The ordnance consists of thirty-six pieces of artillery of various calibres, including ten forty-pounders and ten twenty-five-pounders.

ATHENS, Aug. 30.—Advices from the frontier claim that the Turkish troops were routed on Monday and Tuesday with considerable loss. The Greeks occupy a strong position at Vieglat, which is to the north of Seaross.

ALEXANDRIA, Aug. 30.—Cheriff Pasha, the new president of the council, has issued a circular drawing the attention of foreign consuls to the immense influx of a low class of population. He says in consequence of the scarcity of water and lack of employment care must be taken in order that the public purity may not be imperilled by the influx of people. Therefore persons having no fixed occupation or visible means of subsistence will not be allowed to land.

ISMALIA, Aug. 30.—The official report of General Lawe regarding the action of the cavalry at Kassassin confirms the details already printed. He says that after the charge the ground was strewn with the bodies of dead Egyptian infantry. After praising the gallantry of the Household cavalry General Lawe adds that their excellent behavior at all times is on a par with it.

General Wolseley states that the enemy are now throwing up works in front of Kassassin.

BERLIN, Aug. 31.—The representative of a great Power at St. Petersburg having asked the Government whether he should hire rooms at Moscow in the autumn for his use at the coronation of the Czar, was informed the ceremony certainly would not occur before May.

LONDON, Aug. 30.—A dispatch from Durban states that the British Kaffir chief Sesocenic, his son and fourteen followers, were killed. It was done by another chief being put into his place by the British.

ATHENS, 30. Aug.—Hellenic troops have been ordered to the frontier, where the Government has determined to concentrate four thousand men immediately. This number will be sufficient if the movement of Turkey is not instigated by the Turkish local commander, but if the impulse emanates from Constantinople, the struggle will prove serious.

PORT SAID, Aug. 30.—Europeans who arrived from Cairo, under escort by way of Damietta, announce that by the energy of the prefect of police at Cairo, Europeans are not molested. A Frenchman named Demars was murdered by his servants on Friday, and was buried Saturday, under police protection. The Arabs continue strengthening Ghemilex.

GLASGOW, Aug. 30.—The Scotch iron-masters have resolved not to continue the agreement with the Cleveland iron-masters to restrict the output of pig iron.

ISMALIA, Aug. 30.—It is believed Arabi Pasha has brought up his infantry by train from Kafr el Dwar for an attack on the British at Kassassin Lock. The British artillery fire was most effective, and prevented the enemy from advancing in close order, as they apparently intended. The loose formation of the infantry gave opportunity to our cavalry. The Life Guards made fearful havoc among the scattered fugitives. A train of wounded British is now on its way to Ismalia.

ALEXANDRIA, Aug. 30.—Arabi Pasha is strongly fortifying his position at Dwanhour. All was quiet at Caiso up to the 26th.

CORK, Aug. 30.—The corporation has passed resolutions condemning the sentence of E. Dwyer Grey, and demanding that he be released. The corporation also resolved to confer upon Grey the freedom of the city.

DUBLIN, Aug. 30.—At a meeting of the Down police resolutions were adopted demanding an increase of pay and pensions. Two constables were appointed to attend the commission of inquiry in Dublin.

Corea.

LONDON, Aug. 29.—A telegram from Corea states that the uncle of the king has seized the throne.

Japan.

YOKOHAMA, Aug. 16.—There have been 775 cases of cholera here within two days, of which 572 proved fatal. At Tokio about 80 cases and 50 deaths occur daily.

DR. SPINNEY, well known as the founder the Montreal (C. E.) Medical Institute, and late Proprietor of the SPINNEYVILLE INFIRMARY would most respectfully inform his patients and the afflicted generally, that he still continues to treat chronic and nervous diseases with unparalleled success.

LADIES AND GENTLEMEN

Remember that procrastination is the thief

COME AND BE HEALED

It matters not what you troubles may be come and let the Doctor examine your case. It will cost you nothing for consultation, so please call and satisfy yourselves whether the Doctor understands your case. If he can cure you he will tell you so; if not, he will tell you that, for he will not undertake a case unless he is confident of effecting a cure.

Parties at a distance wishing treatment, by sending $25 and a minute description of their troubles will receive in return a full course of treatment securely packed so as not to excite curiosity.

DR. SPINNEY will guarantee to forfeit Five Hundred Dollars for every case of any kind or character which he undertakes and fails to cure.

P. S.—For diseases of short standing a full course of medicines, sufficient for a cure, with all instructions, will be sent to any address on receipt of $10.00 Call or Address

REMOVAL OF SNAGS,

FRASER RIVER.

SEALED TENDERS, SUPERSCRIBED AS ABOVE and addressed to the undersigned, are invited to be delivered at this office by or before 4 p. m. of FRIDAY, the 15th September next, for the removal of Snags from the Channel of Fraser River, between Cheam and New Westminster. About 30 or 40 Snags will probably have to be removed.

The Snags to be removed will be pointed out to the Contractor by the Dominion Government Agent, or other agent of the Public Works Department, when the work is undertaken; and those Snags will have to be removed first which in the opinion of the said Agent most impede and endanger navigation.

The Snags in every case, including the portions thereof imbedded in the mud, are to be wholly removed, and either destroyed or transported to and made fast in such a position clear of the channel, as shall be considered satisfactory by the said Agent.

The whole work must be completed by the 16th December next.

The Tenderer is to state the rate per Snag for the removal of the whole number of Snags that may be required by the said Agent to be removed as above specified.

Payment will be made in three equal instalments proportionate to the progress of the work in the judgment of the said Agent.

Each Tender must be accompanied by an accepted Bank Cheque or Certificate of Deposit of the sum of $500, made payable to the order of the Dominion Government Agent, which will be forfeited if the Tenderer declines to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the Tender be not accepted the Cheque or Certificate will be returned.

The lowest or any tender will not necessarily be accepted.

DR. LEAS'

SOLUBLE PHOSPHATE OF IRON.

Clear as spring water and tasteless; has the advantage over all ferruginous preparations of containing Iron and Phosphorus, which are the elements of blood. It cures *chlorosis, pains in the stomach, difficult digestion, diemenorrhoea, anemia, general debility and poorness of the blood*, and agrees especially with the most delicate stomachs

WOMEN'S AND CHILDREN'S DISEASES.

No more Cod-Liver Oil.

Grimault's Syrup of Iodized Horse-Raddish.

This medicine has been administered with the utmost success in the Hospitals of Paris. It is a perfect substitute for COD LIVER OIL and has been found most beneficial in DISEASES OF THE CHEST, SCROFULA LYMPHATIC DISORDERS, GREEN SICKNESS, MUSCULAR ATONY and LOSS OF APPETITE. It regenerates the constitution in purifying the blood, it being the most powerful depurgative known. It has also been applied with happy results in DISEASES OF THE SKIN Further, it will be found to be of great benefit to young children subject to HUMORS and OBSTRUCTION OF THE GLANDS.

GRIMAULT & CO.'S MATICO, CAPSULES AND LIQUID.

Where all other medicines have failed these preparations will always effect a cure. They insure rapid and extraordinary cure of severe, recent and chronic cases of private disease. They are used in the Hospitals of Paris by the most celebrated physicians and are found greatly superior to all hitherto known mineral remedies, Copabia and Cubebs. The injection is used in recent, and the capsules in the more chronic cases.

DUSART'S SYRUP OF LACTO-PHOSPHATE LIME.

TONIC, RECONSTITUENT and DIGESTIVE, of primo der, particularly suitable to FEEBLE SUBJECTS, CONVALESCENTS, OLD PEOPLE and RICKETY CHILDREN, who find in them CALCAREOUS ELEMENTS enter into the CONSTITUTION OF THE BONES. Well adapted to LADIES IN THE FAMILY WAY, and WET NURSES (whose milk it enriches).

ASTHMA! ASTHMA!!
GRIMAULT & CO.'S INDIAN CIGARETTES

ASTHMA, NERVOUS COUGHS, CHRONIC LARYNGITIS HOARSENESS, LOSS OF VOICE, FACIAL NEURALGIA, and INSOMNIA are rapidly relieved by using these Cigarettes.

SICK HEADACHE! NEURALGIA!
GRIMAULT & CO'S GUARANA
